

中子散射研究中心

Centre for Neutron Scattering

The IHEP-CityU Joint Laboratory on Neutron Scattering was recently awarded a \$3.75 million grant from the Research Grants Council (RGC) under the [Co-funding Mechanism on Joint Laboratories with the Chinese Academy of Sciences \(CAS\)](#). Co-established by CityU and the CAS Institute of High Energy Physics (IHEP), the Joint Laboratory promotes collaboration between China Spallation Neutron Source in Dongguan and Hong Kong scientists. [The grand opening of the Joint Laboratory was held on February 27, 2019.](#) In the latest five-year assessment commissioned jointly by RGC and CAS, the [IHEP-CityU Joint Laboratory on Neutron Scattering was rated “Outstanding.”](#) one of the four joint laboratories out of the twenty-two across Hong Kong universities receiving such a rating. Professor Hesheng Chen of IHEP and Professor Xun-Li Wang of CityU are co-Directors of the Joint Laboratory. The new grant will be used for collaborations, academic exchanges, and outreach programs to expand the user base.
